3,133 sq. ft.

La Bonita is a house plan that captures the essence of light, surrounded by windows that allow the flow of natural sunlight throughout the home. This custom-built 4-bedroom, 4.5-bath home features a grand two-story living room, a chef's kitchen, designer-style lighting, and custom trim work throughout.

La Bonita comes with more than one acre of privacy, allowing for a future pool, a 3-car garage, a downstairs guest suite, and all of the designer touches included.
