Good morning,

We looked and do not have anything on file. However, we are in the process of digitizing our files, and this area has been boxed up to be shipped. I do not have a time frame for when the digitalizing process will be complete, and records will be available to access. We apologize for the inconvenience.

I spoke to one of the inspectors and they recommended having a licensed septic inspector perform a "Point of Sale" inspection for this property. This will tell you a lot more information than the Health Department can give you. They will uncover the tank and distribution box, and locate all the drain field. You do not need a permit from the Health Department before purchasing a property.

Thank you,

Dana
