

SAND DOLLAR HOMES at

Cripple Creek

Standard Features

Sand Dollar Homes builds each beautiful home to meet all current building codes and standards. We take pride in the quality of our homes. And, as a local home builder we focus our attention on quality and providing a safe and stylish home that will stand the test of time.

We are pleased to provide a list of our standard features that we incorporate into our homes. While each project and community that we build in is unique and may require different materials or alternative finishes, we strive to maintain numerous vendors and suppliers so that we have access to the best materials available to continue our tradition of **high-quality** construction. Due to current economic conditions, we may on occasion have to substitute materials with like in kind to achieve the same look, function, and quality that meet our high standards.
