## Residential Property And Owners' Association Disclosure Statement

Protecting the Public Interest in Real Estate Brokerage Transactions

Property Address/Description: 1235 Frederick Rd Chocowinity NC 278  
Owner's Name(s): Terrace & Linda Wallace

North Carolina law N.C.G.S. 47E requires residential property owners to complete this Disclosure Statement and provide it to the buyer prior to any offer to purchase. There are limited exemptions for completing the form, such as new home construction that has never been occupied. Owners are advised to seek legal advice if they believe they are entitled to one of the limited exemptions contained in N.C.G.S. 47E-2.

An owner is required to provide a response to every question by selecting Yes (Y), No (N), No Representation (NR), or Not Applicable (NA). An owner is not required to disclose any of the material facts that have a NR option, even if they have knowledge of them. However, failure to disclose latent (hidden) defects may result in civil liability. The disclosures made in this Disclosure Statement are those of the owner(s), not the owner's broker.

- If an owner selects Y or N, the owner is only obligated to disclose information about which they have actual knowledge. If an owner selects Y in response to any question about a problem, the owner must provide a written explanation or attach a report from an attorney, engineer, contractor, pest control operator, or other expert or public agency describing it.
- If an owner selects N, the owner has no actual knowledge of the topic of the question, including any problem. If the owner selects N and the owner knows there is a problem or that the owner's answer is not correct, the owner may be liable for making an intentional misstatement.
- If an owner selects NR, it could mean that the owner (1) has knowledge of an issue and chooses not to disclose it; or (2) simply does not know.
- If an owner selects NA, it means the property does not contain a particular item or feature.

For purposes of completing this Disclosure Statement: "Dwelling" means any structure intended for human habitation, "Property" means any structure intended for human habitation and the tract of land, and "Not Applicable" means the item does not apply to the property or exist on the property.

**OWNERS:** The owner must give a completed and signed Disclosure Statement to the buyer no later than the time the buyer makes an offer to purchase property. If the owner does not, the buyer can, under certain conditions, cancel any resulting contract. An owner is responsible for completing and delivering the Disclosure Statement to the buyer even if the owner is represented in the sale of the property by a licensed real estate broker and the broker must disclose any material facts about the property that the broker knows or reasonably should know, regardless of the owner's response.

The owner should keep a copy signed by the buyer for their records. If something happens to make the Disclosure Statement incorrect or inaccurate (for example, the roof begins to leak), the owner must promptly give the buyer an updated Disclosure Statement or correct the problem. Note that some issues, even if repaired, such as structural issues and fire damage, remain material facts and must be disclosed by a broker even after repairs are made.

**BUYERS:** The owner's responses contained in this Disclosure Statement are not a warranty and should not be a substitute for conducting a careful and independent evaluation of the property. **Buyers are strongly encouraged to:**

- Carefully review the entire Disclosure Statement.
- Obtain their own inspections from a licensed home inspector and/or other professional.

DO NOT assume that an answer of N or NR is a guarantee of no defect. If an owner selects N, that means the owner has no actual knowledge of any defects. It does not mean that a defect does not exist. If an owner selects NR, it could mean the owner (1) has knowledge of an issue and chooses not to disclose it, or (2) simply does not know.

**BROKERS:** A licensed real estate broker shall furnish their seller-client with a Disclosure Statement for the seller to complete in connection with the transaction. A broker shall obtain a completed copy of the Disclosure Statement and provide it to their buyer-client to review and sign. All brokers shall (1) review the completed Disclosure Statement to ensure the seller responded to all questions, (2) take reasonable steps to disclose material facts about the property that the broker knows or reasonably should know regardless of the owner's responses or representations, and (3) explain to the buyer that this Disclosure Statement does not replace an inspection and encourage the buyer to protect their interests by having the property fully examined to the buyer's satisfaction.

- **Brokers are NOT permitted to complete this Disclosure Statement on behalf of their seller-clients.**
- Brokers who own the property may select NR in this Disclosure Statement but are obligated to disclose material facts they know or reasonably should know about the property.

Have you received assistance from FEMA, U.S. Small Business Administration, or any other federal disaster flood assistance for flood damage to the property?                                                                                     | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| F10. Is there a flood or FEMA elevation certificate for the property?                                                                                                                                                                                | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

**NOTE:** An existing flood insurance policy may be assignable to a buyer at a lesser premium than a new policy. For properties that have received disaster assistance, the requirement to obtain flood insurance passes down to all future owners. Failure to obtain flood insurance can result in an owner being ineligible for future assistance.

# STATE OF NORTH CAROLINA MINERAL AND OIL AND GAS RIGHTS MANDATORY DISCLOSURE STATEMENT

## Instructions to Property Owners

1. The Residential Property Disclosure Act (G.S. 47E) ("Disclosure Act") requires owners of certain residential real estate such as single-family homes, individual condominiums, townhouses, and the like, and buildings with up to four dwelling units, to furnish purchasers a Mineral and Oil and Gas Rights Disclosure Statement ("Disclosure Statement"). This form is the only one approved for this purpose.
2. A disclosure statement is not required for some transactions. For a complete list of exemptions, see G.S. 47E-2(a). **A DISCLOSURE STATEMENT IS REQUIRED FOR THE TRANSFERS IDENTIFIED IN G.S. 47E-2(b).** including transfers involving the first sale of a dwelling never inhabited, lease with option to purchase contracts where the lessee occupies or intends to occupy the dwelling, and transfers between parties when both parties agree not to provide the Residential Property and Owner's Association Disclosure Statement.
3. You must respond to each of the following by placing a check ☒ in the appropriate box.

## MINERAL AND OIL AND GAS RIGHTS DISCLOSURE

Mineral rights and/ or oil and gas rights can be severed from the title to real property by conveyance (deed) of the mineral rights and/ or oil and gas rights from the owner or by reservation of the mineral rights and/ or oil and gas rights by the owner. If mineral rights and/ or oil and gas rights are or will be severed from the property, the owner of those rights may have the perpetual right to drill, mine, explore, and remove any of the subsurface mineral and/or oil or gas resources on or from the property either directly from the surface of the property or from a nearby location. With regard to the severance of mineral rights and/or oil and gas rights, Seller makes the following disclosures:

Comfort H

This manufactured home has been thermally insulated to meet the requirements of the International Building Code (IBC) for manufactured home construction and the applicable energy code.

Heating equipment manufacturer and model (see list at 4). The above heating equipment has the capacity to maintain in this home at outdoor temperatures of -13°F.

To Maximize furnace operating economy and to conserve air, this home be installed where the outdoor winter design temperature is higher than 12°F.

The above information has been calculated assuming a maximum standard atmospheric conditions.

Comfort Cooling

☐ Air Conditioner provided at factory (Alternate 1)

Air conditioner manufacturer and model (see list at 4). Certified capacity B.T.U./Hour in accordance with air conditioning and refrigeration institute standards. The central air conditioning system provided in this home has been sized assuming an orientation of the front (facing end) of the home facing south. It is designed to maintain an indoor temperature of 75°F when outdoor temperatures are 95°F dry bulb and 85°F wet bulb.

The temperature to which this home can be cooled will change depending on the exposure of the windows of this home to the sun's radiant heat. Therefore, the cooling capacity will vary dependent upon its orientation to the sun and any permanent shade. Information concerning the calculation of cooling loads at various latitudes, window and shading are provided in Chapter 12 of the 2001 edition of the ASHRAE Fundamentals. Information necessary to calculate cooling loads at various latitudes and orientations is provided in the special comfort cooling information provided with this manufactured home.

☐ Air Conditioner not provided at factory (Alternate 2)

The air distribution system of the home is suitable for the installation of the central air conditioning system. The air distribution system installed in this home is the 2000 ft. long, 12 inch diameter, single duct supply of air distribution system of an air conditioning system. The air conditioning system is designed to maintain an indoor temperature of 75°F when outdoor temperatures are 95°F dry bulb and 85°F wet bulb. The air conditioning system is designed to maintain an indoor temperature of 75°F when outdoor temperatures are 95°F dry bulb and 85°F wet bulb.
