# WAYNE COUNTY HEALTH DEPARTMENT

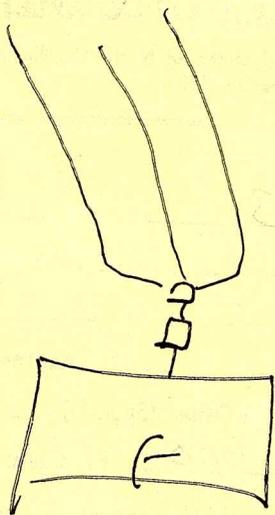

## CERTIFICATE OF COMPLETION

Pursuant to Article 11 of Chapter 130 of the General Statutes of North Carolina, "Sanitary Sewage Systems" and Sewage Collection, Treatment and Disposal Systems Rules 10 NCAC 10A Section .1900.

Subdivision Salem Area #3 Date 8/8/89  
Owner Gene Garcia Lot No. 10411 Section No. 3  
Location Wilmington S. R. No. \_\_\_\_\_  
Septic Tank Contractor MVE Address \_\_\_\_\_  
 Bedroom Home  Bedroom Mobile Home  Other (Specify) \_\_\_\_\_  
Tank Size 900 Gallons., Nitrification Line 600 Sq. Ft. Other (Specify) \_\_\_\_\_  
Remarks 3. 67' x 36"  
Public Water

NOTE: Proper maintenance of this sewage disposal system is necessary. To insure surface drainage, area in which nitrification field is installed must be landscaped properly with "turtleback" shaping of site and diversion of all surface run off. Water from house gutters and downspouts must be diverted away from septic tank system. Where artificial drainage has been installed to control the water table, it must be maintained and downstream drainage outlets kept properly draining or malfunction of septic tank will result. This certificate of completion does not constitute a warranty and is issued subject to the conditions of the Improvements Permit issued for this site.

IMPROVEMENTS PERMIT**

C

Pursuant to Article 11 of Chapter 130 of the General Statutes of North Carolina, "Sanitary Sewage Systems", and Sewage Collection, Treatment, and Disposal Systems Rules 10 NCAC 10A Section 1900.

Date 4-17-89

Subdivision Salen Acres # 7 Lot Number 10511 Section Number # 3

Property Owner Gene GARRETT Address 102 PLANTATION Rd. Goldsboro

Location E. Guilford St. off SALEM Ch. Rd. S. R. No. \_\_\_\_\_

Contractor \_\_\_\_\_ Address \_\_\_\_\_

Bedroom Home \_\_\_\_\_ Bedroom Mobile Home \_\_\_\_\_ Other (Specify) \_\_\_\_\_

Tank Size 900 Gallons, Absorption Line 600 Sq. ft. (See Plot Plan for Location, etc.)

Remarks: Refer to plot plan Site Classification S Daily Flow Rate 360

NOTE: System should be at least 100 feet from any well. This permit is issued subject to compliance with Subdivision and zoning regulations when applicable. Septic tank system must be inspected by a sanitarian and approved before back filling. To insure surface drainage, area in which nitrification field is installed must be landscaped properly with "turtle-back" shaping of site and diversion of all surface run off. Water from house gutters and downspouts must be diverted away from septic tank system. Where artificial drainage has been installed to control the water table, it must be maintained and downstream drainage outlets kept properly draining or malfunction of septic tank will result. Permit invalid after 36 months from date of issue. This permit does not constitute a warranty. This improvements permit does not negate or supersede any zoning restriction or restricted covenants in the chain of title. It is the responsibility of the permittee to determine whether or not such restrictions apply. Use of water-saving fixtures and plumbing is highly recommended. Well should be located a safe distance (100 ft. preferable, but in no case less than 50 ft.) from sources of contamination such as building foundations chemically treated for pests, fuel oil tanks, animal pens, etc. This permit in no way guarantees the sewage disposal system or the functioning of the sewage disposal system.
