| DESCRIPTION   | RATE        | QTY | AMOUNT          |
|---|-------------|-----|-----------------|
| This proposal is for full replacement of the interior foundation system and supplemental piers and footings at the outside perimeter of the foundation at the property located at 3235 US HWY 13, Goldsboro, NC. The scope of work includes new footings, CMU piers, girders and joists, all installed per the latest 2018 edition of the North Carolina Residential Code. Additionally, as required, new TNG subfloor and finish floor (lvp) similar to existing. This estimate includes all plan and permit costs as well as Engineer's letter of recommendations and stamped final approval letter. Includes all demolition and dump/ landfill/ hauling and delivery fees. | \$60,000.00 | 1   | \$60,000.00     |
| TOTAL   |             |     | USD \$60,000.00 |

This estimate is based on what can physically be observed at the time of this estimates creation. As demolition begins it is very common that damage is exposed that would go beyond the scope of work listed in this estimate and would incur additional materials and labor costs. Any additional work or costs shall be brought to the homeowners attention and approved by the homeowners prior to any additional work and costs.
