*** NOTE REGARDING RADON AND OTHER ENVIRONMENTAL QUALITY ISSUES TESTING:** In addition to testing for the presence of radon, consideration should be given to testing the air and any private drinking well water for the presence of other contaminants, including but not limited to, biological, chemical, and radiological contaminants. Buyer or Seller should consult with an air and/or water quality specialist regarding the need for and scope of any such testing.

***NOTE REGARDING SURVEYS:** Situations arise all too often that could have been avoided if the buyer had obtained a new survey from a NC registered surveyor. A survey will normally reveal such things as encroachments on the Property from adjacent properties (fences, driveways, etc.); encroachments from the Property onto adjacent properties; road or utility easements crossing the Property; violations of set-back lines; lack of legal access to a public right-of-way; and indefinite or erroneous legal descriptions in previous deeds to the Property. Although title insurance companies may provide lender coverage without a new survey, the owner's policy contains an exception for easements, set-backs and other matters which would have been shown on a survey. Many such matters are not public record and would not be included in an attorney's title examination. In addition, if the buyer does not obtain their own survey, they would have no claim against a surveyor for inaccuracies in a prior survey.
