RE: Backflow Assembly Test Due at Resident 2 Hunter Ct Southern Pines, NC 28387

Dear Water Customer,

The State of North Carolina and the Town of Southern Pines, Code of Ordinances, Ch. 50.039 requires that backflow prevention assemblies be installed on all hazardous cross-connections in an effort to keep our water supply safe. These assemblies must be tested and certified every year to ensure that they are working properly. The Town of Southern Pines has partnered with BSI Online to assist in administering the backflow program in your community. Our records show the following backflow assembly(s) at your property, which are due to be tested by April 1, 2025.

Size	Manufacturer	Model	Serial Number	Hazard	Location
1"	Watts	919	51487	Irrigation	At street next to meter

You are responsible for hiring a licensed backflow tester to perform the annual test and certification of the backflow assembly(s) listed above (BSI does not test backflow assemblies). Please provide the CCN listed in the top right corner of this letter to your backflow tester, as they will need this number to properly file your backflow test reports via BSI Online. You may also use this CCN at [www.bsionline.com](http://www.bsionline.com) to verify when your backflow test has been filed, locate a list of testers in your area, or to simply learn more about backflow. Please contact BSI via e-mail ([support@backflow.com](mailto:support@backflow.com)) or phone (888-966-6050) if you have any questions. Thank you for your cooperation and for helping to protect our water resources.

Sincerely,

Christine Walsh, Vice President  
BSI / Agent for the Town of Southern Pines

For your convenience, your last testing company  
of record (if available) is listed below:
