

Residential Property And Owners' Association Disclosure Statement

Protecting the Public Interest in Real Estate Brokerage Transactions

Property Address/Description: 9002 School St., Rocky Mount, NC 27803

Owner's Name(s): East NC Enterprises Inc

North Carolina law N.C.G.S. 47E requires residential property owners to complete this Disclosure Statement and provide it to the buyer prior to any offer to purchase.

An owner is required to provide a response to every question by selecting Yes (Y), No (N), No Representation (NR), or Not Applicable (NA).

- If an owner selects Y or N, the owner is only obligated to disclose information about which they have actual knowledge.
• If an owner selects N, the owner has no actual knowledge of the topic of the question...
• If an owner selects NR, it could mean that the owner (1) has knowledge of an issue and chooses not to disclose it...
• If an owner selects NA, it means the property does not contain a particular item or feature.

For purposes of completing this Disclosure Statement: "Dwelling" means any structure intended for human habitation, "Property" means any structure intended for human habitation and the tract of land, and "Not Applicable" means the item does not apply to the property or exist on the property.

OWNERS: The owner must give a completed and signed Disclosure Statement to the buyer no later than the time the buyer makes an offer to purchase property.

The owner should keep a copy signed by the buyer for their records. If something happens to make the Disclosure Statement incorrect or inaccurate (for example, the roof begins to leak), the owner must promptly give the buyer an updated Disclosure Statement or correct the problem.

BUYERS: The owner's responses contained in this Disclosure Statement are not a warranty and should not be a substitute for conducting a careful and independent evaluation of the property. Buyers are strongly encouraged to:

- Carefully review the entire Disclosure Statement.
• Obtain their own inspections from a licensed home inspector and/or other professional.

DO NOT assume that an answer of N or NR is a guarantee of no defect. If an owner selects N, that means the owner has no actual knowledge of any defects. It does not mean that a defect does not exist.

BROKERS: A licensed real estate broker shall furnish their seller-client with a Disclosure Statement for the seller to complete in connection with the transaction. A broker shall obtain a completed copy of the Disclosure Statement and provide it to their buyer-client to review and sign.

- Brokers are NOT permitted to complete this Disclosure Statement on behalf of their seller-clients.
• Brokers who own the property may select NR in this Disclosure Statement but are obligated to disclose material facts they know or reasonably should know about the property.

Subject: HUD Compliant Foundation Engineering Certification

The above property has been inspected and found to comply with the following:

- The crawlspace has been inspected, and this Engineering Certification certifies that the foundation details as found at the above site location meet the requirements of HUD 7584/4930.3G, Permanent Foundations Guide for Manufactured Housing, dated September 1996.
- There is no visual indication that this manufactured home has been previously installed or occupied at another site or location. Verification that the home has not been moved is based solely on visual evidence at the time of the inspection.
- Additions and modifications, including porches and decks, have been inspected and do not impact the structural integrity of the property per MHCSS requirements. The additions do not take the home out of compliance with the HUD Manufactured Home Construction Safety Standards.

This Permanent Foundation is constructed of durable materials and was site built. It is anchored and transfers all loads of the manufactured home to the underlying soil and rock. The home has lateral anchorage to prevent sliding due to wind or seismic forces in the transverse and longitudinal directions. The anchorage capacity is sufficient to prevent uplifting or overturning due to wind or seismic forces as required by the Permanent Foundation Guide for Manufactured Housing.

All construction shall meet applicable local building codes and manufacturer's recommendations in place at the time of construction. For manufactured homes, the original delivery address can be requested and verified at www.ibts.org at the Manufactured Home Label Verification tab. As this certification is for existing foundations, depths of footings and piers have not been physically verified, but extrapolated from visible property conditions. This certification is the property of Hayman Engineering. It is issued to the listed owner and it may not be transferred to another owner without written permission from Hayman Engineering.
