Re: Permanent Foundation Inspection & Certification  
3656 Lakeview Drive SW  
Supply, NC 28462

Dear Brian:

Per your request, I have made a site visit and performed an inspection of the above-referenced manufactured home. I certify the foundation structure meets the requirements of the NC Building Code for manufactured housing and the set-up of the home meets FHA requirements as set forth in Permanent Foundation Guide for Manufactured Housing, HUD 7584 dated September 1996. All adjacent structures, including the front stairs, and side platform and stairs, were done in accordance with HUD manufactured home construction and safety standards and do not negatively impact the structure of the house.

Based on my observations of the house, it is in the original set-up location and has not been moved.

If you have any questions, please call me at 910.398.5740 or email me at [tim@timhinespe.com](mailto:tim@timhinespe.com).

Sincerely,

Tim Hines, PE
