- Other conditions/specify Fill proposed septic area; provide ditching

Authorized State Agent: Brandon R. Grigsby *Brandon Grigsby REHS* Date: 10/12/2023

The issuance of this permit by the Health Department in no way guarantees the issuance of other permits. The permit holder is responsible for checking with appropriate governing bodies in meeting their requirements. This permit is subject to revocation if the site, site plan, plat, or intended use changes. The Improvement Permit shall not be affected by a change in ownership of the site. This permit is subject to compliance with the provisions of the Laws and Rules for Sewage Treatment and Disposal and to conditions of this permit. A pump may be required based upon final location and elevations of facilities.

Notes: Fill proposed septic area with 6"+ of approved sandy-loamy soil; this area measures ~ 110'L x 31'W, plus sideslopes as needed; till/blend fill in with natural soil; fill area should be level upon completion; ditching is required along side and back property lines (as shown on permit drawing) to help with drainage; have contractor call Health Dept. prior to beginning site work to meet on this lot and discuss details
