Mr. Frank Waff  
Rt. 2, Box 280  
Swansboro, N.C. 28584

Subject: Proposed Subdivision located  
Highway 58, (Single family resi-  
dences and three (3) commercial  
lots).

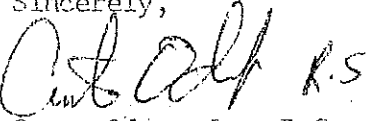

Dear Mr. Waff:

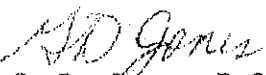

An inspection of your property was made by a member of this office for the purpose of determining if your property would support septic tank sewage disposal systems.

It is the opinion of this office that the front 600' will support septic tank systems. The soils have been classified as "Sandy Loam" and "Sandy Clay Loam".

However, the rear portion of this tract is classified as "unsuitable". The lot has clay soils and high water with some organic soils. We further need plans for the proposed subdivision.

We will keep your application on "hold" until we hear from you. If we can be of further assistance please call.

Sincerely,  
  
C. A. Oden, Jr., R.S.
