

4103 SOUND DRIVE

PINE KNOLL SHORES

SPECIAL FEATURES

Welcome to 4103 Sound drive, a unique blend of old world influences with refined, high-end details that create an atmosphere of elegance and grandeur. Set among wind-sculpted live oaks and lush gardens, the property offers a breathtaking backdrop of Bogue Sound in endless shades of blue.

Inside, every space is thoughtfully designed to inspire. A private library, complete with a rolling ladder, invites you to discover your next favorite novel. The wine room provides the perfect bottle for a quiet evening toast. The primary suite evokes royal living, with a soaking tub framed by picture windows and a cozy fireplace for unwinding in style.

Outdoor living is equally captivating. Covered porches and patios overlook the Sound, offering the perfect vantage point for summer afternoons and spectacular sunsets that light the sky with a fiery glow.

Architecturally, the home is both a striking showpiece and a natural complement to its coastal setting. Welcoming double porches, classic siding, and expansive windows reflect the timeless appeal of southern design, while modern elements add sophistication and distinction.

Passion for art and design is evident throughout, blending rustic, historic materials with contemporary craftsmanship. Repurposed timbers from 19th-century Amish barns, reclaimed hickory floors, century-old tobacco barn beams, and live oak once destined for the USS Constitution infuse the home with character and history.

With five en-suite bedrooms, a grand gourmet kitchen, soaring ceilings, safe rooms, and countless custom features, this residence is both a work of art and a vision brought to life.
