SECTION VI – FLOOD HAZARD

For the purposes of this section, Maine law defines "flood" as follows:

- (1) A general and temporary condition of partial or complete inundation of normally dry areas from:(a) The overflow of inland or tidal waters; or (b) The unusual and rapid accumulation or runoff of surface waters from any source; or
- (2) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm or by an unanticipated force of nature, such as a flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event that results in flooding as described in subparagraph (1), division (a).

For purposes of this section, Maine law defines "area of special flood hazard" as land in a floodplain having 1% or greater chance of flooding in any given year, as identified in the effective federal flood insurance study and corresponding flood insurance rate maps.

During the time the seller has owned the property:

Karen -

Here's some of what I know -

At my house, there is a 3-ring binder I put together for guests who may have questions. In it are instruction manuals, warranties, and dates of purchase for appliances, etc. It may have some useful information.

Natt + I have owned the house since 1998, purchased from Lucinda Talbot. Much of our repairs / renovations occurred within the first 12¹⁵ years.

This is a partial list of items improved:

- shingles replaced
- white alum. gutters + downspouts installed
- 9 new windows incl. insulated glass and screens (on porch) installed
- front roof replaced using mildew-resistant shingles
- gutter installed on back section of porch
- stone wall repaired
- deck cleaned + stained; trim painted white; shingles stained on entire house
- 2 new storm doors added
- Installed stainless steel lining system + new cap on chimney

- Major renovation of kitchen and 1st floor bathroom including new appliances, kitchen island, kitchen flooring, etc.
- Painting of entire 1st floor
- Carpet replaced in basement
- Washer + drier replaced.
- Hot water heater installed
- Heating system upgraded * warranty manuals located in basement near appliances

Regarding the water supply, radon/air and radon/water, underground storage tanks - all listed on the "property disclosure sheet," - we had a home inspection done along with radon and water tests before we purchased the house. (December 1997)

Everything came in at satisfactory levels. - (radon being slightly higher than EPA action level but we were told not to worry since we were not living in the basement and only seasonal residents.)

Consequently we did not continue any home tests. We had no issues with any of these.

I do have the Home Inspection from Criterium - Mooney/Sousa Engineers, Halls Cove, ME from 12-4-1997.

(Probably of no use now!)
